INTRODUCTION

1.1 VISION

A safer community that effectuate a pragmatic and holistic mechanism to prevent, mitigate and respond to any event of disaster and consistently advance in all aspects of disaster risk reduction.

1.2 MISSION

Develop and establish a structurally and functionally competent administrative unit at District and Taluk levels, cognizant and adept in disaster management activities, which is prepared to minimize the devastating effects of a disaster, whether natural or human induced, and capable of appropriate timely deliverance of services upon an emergency.

1.3 POLICY

The Kerala State Disaster Management Policy, 2010 vide G.O (MS) No. 240/2010/DMD dated 19-06-2010 has laid down the guiding principles for the District disaster management plan. The policy aims to foster a culture of prevention, mitigation and preparedness from the grass root levels of the District administration.

1.4 OBJECTIVES OF THE PLAN

The primary objective of The District Disaster Management Plan (DDMP) is to be an instrument to implement the responsibilities assigned to DDMA in section 30(1) and (2) of DM act, 2005 and section 14 of KSDMA rules, 2007. In accordance with the guidelines in section 31(3) of DM act, the District Plan aims to include-

- a) *the areas in the district vulnerable to different forms of disasters;*
- b) *the measures to be taken prevention and mitigation of disaster, by the departments of the government at the district level and local authorities in the district;*
- c) *the capacity- building and preparedness measures required to be taken by the departments of the governments at the district level and the local authorities in the district to respond to any threatening disaster situation or disaster;*
- d) *the response plans and procedures, in the event of a disaster, providing for*
 - i. *allocation of responsibilities to the departments of the government at the district level and the local authorities in the district;*
 - ii. *Prompt response to disaster and relief thereof;*
 - iii. *Procurement of essential resources*
 - iv. *Establishment of communication links; and*
 - v. *the dissemination of information to the public;*

1.5 SCOPE OF THE PLAN

District disaster management plan abides by and integrates the directions of National DM Act 2005, the State DM Rules 2007, the State DM Policy 2010, rules, regulations and other significant guidelines.

- The plan provides a necessary framework for the District administration to facilitate, coordinate and monitor disaster management tasks by mobilizing the resources and taking the expertise of relevant Governmental departments at central and state level, local self-governments, private sector, non-governmental organizations and community in every phase of disaster management.
- This plan is consistently operational at all levels of management within the geographical and jurisdictional limits of the District administration.
- This plan is pertinent to the prevention of hazards, mitigation, preparedness, response and recovery from disasters listed in section 7 of State DM Policy 2010 and other events recognized as hazards or disasters by the State Executive Committee or the State Disaster Management Authority from time to time.

1.6 AUTHORITY & REFERENCE

The DDMA has the authority to conceive, test and implement a District Disaster Management Plan in accordance with the section 30 (2) I, ii & iii of the DM act 2005.

The acts, rules, policy for disaster risk reduction in the District and regulations relating to the implementation of this plan are as given below:

1.7 PLAN DEVELOPMENT

As per section 30 (2) (i) of the National DM Act and state DM policy,2010, the District shall prepare a Disaster Management Plan including District Response Plan for the District with respect to the guidelines issued by the National and State Authority respectively. The District administration shall coordinate and monitor the implementation of the National Policy, State Policy, National Plan, State Plan and District Plan.

The State Executive Committee of KSDMA in its meeting held on 14th June 2013 has authorized State Emergency Operation Centre, formerly HVRA Cell (Research & Technical Laboratory of KSDMA) to revise the District DM Plans within 2 years starting January 2014. Besides SEOC prepared a template and the Principal Secretary, Revenue and Disaster Management has circulated the template to the nodal departments for the formulation of departmental plans.

1.8 PLAN REVIEW & UPDATING

DDMP consists of two major components- a dynamic component and a stable component. The stable component encompasses the guidelines laid down by the national, state acts, rules and shall be revised once in 5 years by SDMA whereas, the dynamic component comprises of elements that are subject to constant change and thus should be revised once in a year in the meeting convened by DDMA. Although, DDMA has the authority to decide on the regularity of review and revision of DDMP, plan review should mandatorily be conducted in the aftermath of any declared disaster within the District or neighbouring Districts and modifications should be made accordingly. The DDMP may be reviewed preferably in February and updated in April. Update of the plan should be based on inputs gained under:

- a) Mockdrills
- b) Recommendations from all Departments in DDMA meeting
- c) Past disaster experiences
- d) Directions issued from State Disaster Management Authority

HAZARD, VULNERABILITY AND RISK ASSESSMENT

2.1 INTRODUCTION

Alappuzha one of the southern districts in the smallest in terms of area in this state. The district lies mostly in the coastal plains. Alappuzha was the only district with out forest cover in the state. Now as per Notification GO(P) 69/2013/fin WLD dated 19-07-2013 a total extent of 05.80 hectare of land has been notified as forest land in Veeyapuram village of Kartikapally taluk. Carved out of the erstwhile Kottayam and Kollam Districts, Alappuzha district was formed on 17th August 1957. A part of the district was later transferred to the newly formed district of Pathanamthitta in 1982. Agriculture is the predominant economic activity with paddy being the main crop. The extensive navigable waterbodies with the unending stretch of paddy fields and lush green coconut palms on the polders, streams, canals, rivers and backwaters and a fairly long stretch of unbroken and rather calm sea coast make it an ideal sport of waterfront tourism.

The word 'Alappuzha' is derived from the two words, 'Ala' meaning broad and 'Puzha' meaning river. Alappuzha (formally known as Alleppey) is also known as “the Venice of the East”. History says that Alappuzha was for most developed industrial and commercial centre of the Travancore. It also had a trade relation with ancient Greece and Rome. The presence of a port and a pier, criss – cross roads and numerous bridges, a long and unbroken sea coast – all these might have prompted her to make this comparison.

Alappuzha district is bounded on the north by Ernakulam District, east by Kottayam and Pathanamthitta District, south by Kollam district and west by Arabian Sea (Lakshadweep Sea). The District lies in the midland and coastal areas. The major rivers flowing though the district are Manimala river, Pampa river and Achankovil river. All these rivers branch off in the low land and branches intermingle and they ultimately drain into the Vemband Lake at different places. The Vembandlake which is the largest lake in the state, separates the district from Ernakulam and Kottayam districts on the north and east. More over the Meenachil and Moovattupuzha rivers are also drain into Vembandlake.

The district has its headquarters at Alappuzha town. The district comprises of two revenue divisions, Alappuzha and Chengannur. The Alappuzha Revenue Division with headquarter at Alappuzha town consists of Cherthala, Ambalappuzha and Kuttanad Taluk. The Chengannur Revenue Division with headquarter at Chengannur town spreads over Chengannur, Mavelikkara and Karthikappally Taluks. There are six taluks and 93 revenue villages in the District.

There is One District Panchayath, 12 Block Panchayath 5 Municipalities and 73 GramaPanchayaths in this District. The Five Municipal towns of this district are located in the five taluks, and Kuttanad is the only taluk without any Municipal town.

Today, disaster management occupies an important place in this country's policy framework. Before a decade, our country was not having a proactive approach for managing unexpected disasters that shake the country. It was after the 2004 Tsunami that the Government enacted Disaster Management Act 2005. The Act calls for the establishment of National Disaster Management Authority (NDMA), with the Prime Minister of India as chairperson

Alappuzha has been traditionally vulnerable to natural disasters on account of its unique geo-climatic conditions & vast coastline. Floods and droughts have been recurrent phenomena. Pursuant to the provisions of Disaster Management Act 2005, a District Disaster Management Authority (DDMA), chaired by District Collector has been set up to reduce disaster risk, and implement locally relevant recovery activities in post-disaster situations. The need for a comprehensive Disaster Management Plan for Alappuzha District has been identified to strengthen and assist district authorities to manage disasters, and to play a supportive and coordinating role during frequent floods, droughts and other man-made disasters.

The District Disaster Management Plan is envisaged to provide critical inputs that would enhance the efficiency and effectiveness of disaster management in real time. This plan strives to institutionalize the policies, plans and guidelines for disaster management which is required for "timely and effective response to disaster". It also helps to foresee disaster risk reduction activities at various levels and develop preparedness for recovery/mitigation.

WEATHER AND CLIMATE

Owing to its proximity to the sea, the climate of Alappuzha is humid and hot during the summer, although it remains fairly cool and pleasant during the months of October and November. The average monthly temperature is 27°C. The district also gets the benefit of two seasonal monsoons, as in other parts of the state. Alappuzha city experiences a long monsoon season with heavy showers as both the Southwest monsoon and Northeast monsoon influences the weather of Alappuzha. The South-west monsoon affects the climate in the months from June to September. On the other hand, the North-east monsoon brings rain from October to November.

AGRICULTURE

Alappuzha with a geographical area of 1414sq km is a coastal district of kerala. It has 35000 Ha of paddy land - kuttanad is the main rice growing tract of Alappuzha District. Kuttanad is also known as the Rice bowl of Kerala. The paddy crop raised during summer months is the main crop of Kuttanad. This crop is also known as Puncha crop. It covers an area of 28000Ha. There is an additional crop also raised during rainy season on July to October November. It covers an area of 12000 Ha. Other important crops of the district are,

Coconut →57632 Ha

Banana→5189 Ha

Vegetable →2096 Ha

Tuber crops →4576 Ha

The State Crop Insurance scheme implemented since 2005, benefited farmers who are cultivating 25cultivated crops including the major crops of district such as Paddy, Coconut, Banana, Vegetables, Nutmeg, Cashew etc. For every crop specific amount of premium to be remitted by the farmers within the time limit and based on the crop loss assessment due to Natural calamities including lightning, Heavy rain & wind, Flood drought cyclone compensation will be paid to farmers. WATER TRANSPORT

The presence of a lot of backwaters and canals makes water transport a popular means of transport. National Waterway-3 passes through Alappuzha. There is an SWTD boat jetty in the city that lies opposite to the KSRTC bus stand. It is served by regular boat services to major towns like Kottayam, Kollam and Changanassery besides to other small towns and jetties. Taking an SWTD boat is a cheaper alternative to houseboats for enjoying the scenic beauty of Alappuzha.

FISHERIES

The fisheries in Alappuzha district occupies a very important position in the industrial sector in Kerala state. Its western boundary, the Arabian sea has rich marine resources. More than 20 per cent of the total area of the district is water-logged, and the 20,000 acres of 'kari' lands and 42,736 acres of paddy fields in Kuttanadare suitable for pisciculture. The Fisheries Department has established a fishermen colony of 20 houses at Thevarvattom in Thycattussery panchayat. Feeder roads from the sea coast to main roads have been constructed to help the fishing industry. The department also started two dispensaries at Thottappally and Pallithode. Another one is under construction at Pallana. The department has established an estuarine fish farm at Ayiramthengu, the southern most boundary of the district. Local varieties of fish are reared in this farm and sold to public at reasonable rates. The total population of fishermen in the district is 136,300. The sea farming fishermen population is 87,027 and the inland fishermen population is 49,273. Of these, not less than 40 per cent are active fishermen and of the remaining, more than 60 per cent are either directly or indirectly engaged in fishing operation. The fishing season in the marine sector is from October to May while in the inland sector, it is done throughout the year. There is a Regional Fisheries Technical High School in Arthunkal. 'Chakara' is a rare marine phenomenon found in this district. It happens usually in the early days of June and may last upto the end of August.

3.3. DISTRICT EMERGENCY OPERATION CENTRE, ALAPPUZHA

The first District Emergency Operation Centre (DEOC) was formed in Alappuzha district. The DEOC is the direct control of District Incident Commander. Day to day administration of DEOC is assigned to the Deputy Collector Disaster Management. The main thing is that relief activities during disaster situation of line departments like Fire and rescue Police, Revenue with full time Medical Doctor On call are coordinated in a single room.

Emergency Operation Center plays a vital role in the Emergency Operation activation. It coordinates the flow of information with respect to activities associated with relief operations. During the normal times it maintains a systematic database of the resources available, important phone numbers, names and addresses of important government and non-government officials and NGOs. During crisis it is expected to function as a center for decision-making and help flow of information horizontally and vertically to the respected departments for smoother relief operations.

Emergency Operation Centre is the nodal point for the overall coordination and control of the relief work in case of any disaster situation. In case of any disaster the district level Emergency Operation Centre have to be activated. The primary function of EOC is to facilitate smooth inflow and outflow of disaster relief activities.

The DEOC will receive and process disaster alerts and warnings from nodal agencies and other sources and communicate the same to all designated authorities and stakeholders, it also receive and compile daily calamity reports from all Taluk offices and submit to state disaster management authority.

EARLY WARNING /EMERGENCY COMMUNICATION SYSTEM

VHF based Earlywarning system installed in vulnerable villages of Alappuzha District. This wireless radios system offers a free flow of communication between District Head Quarters and Village Offices / Taluk Offices. The wireless radio installed in the villages which is connected to a PA system through an amplifier, facilitates the communication from District Headquarters to the general public, if necessary. The PA system installed at the top of the Village Office building can disseminate warnings or messages from District Administration to a distance of 1.5 KM (radius), enabling District Collector to directly communicate to the community living in these villages. Other than disseminating warnings, the system also provides communication facilities between District Headquarters and Village Offices / Taluk Offices facilitating coordinated response and relief in the event of a disaster.

Details of VHF H/B sets deployed at various Taluk Offices/ Village Offices in Alappuzha District show in Table

FINANCIAL ASSISTANCE

As per the National Disaster Management Act, 2005, various financial provisions are available at District level for implementation of the plan. Explore more about this section other than the assistance mentioned here.

4.1 FUNDS AVAILABLE AT NATIONAL AND STATE LEVEL

The Calamity Relief Funds which was in operation till March 2010 to meet the expenditure for providing immediate relief was merged in to State Disaster Response Fund vide notification G.O (P) No. 498/2010/DMD dated 03-12-2010 on the recommendation of 13th Finance Commission. The fund is maintained in the public account of the state for providing immediate relief. The State Government will also claim on the National Disaster Response Fund (previously NCCF) through memorandums for central assistance for relief and rehabilitation in the event of any calamity of a larger proportion

Chief Minister Relief Fund (Nil)

The Chief Minister's Distress Relief Fund provides financial assistance for the distressed people affected by major natural calamities like flood, drought, fire etc. It also provides financial assistance to the needy individuals for their treatment of major diseases like Cancer, Cardiac surgery, Kidney transplant, Brain Tumour, Liver and Multi Organ failures etc

Member of Parliament Local Area Development Scheme (MPLADS) (Nil)

The MPLAD Scheme was launched on 23rd December, 1993, to provide a mechanism for the Members of Parliament to recommend works of developmental nature for creation of durable community assets and for provision of basic facilities including community infrastructure, based on locally felt needs.

MPLADS works can be implemented in areas affected by natural calamities like floods, cyclone, hailstorm, avalanche, cloud burst, pest attack, landslides, tornado, earthquake, drought, Tsunami, fire, chemical, biological and radiological hazards, etc. MPs from the non affected areas of the state can also recommend permissible works upto a maximum of Rs.10 lakh per annum in the affected area(s) in that state.

In the event of “Calamity of severe nature” (which is decided and declared by the Government of India) in any part of the country, an MP can recommend works up to a maximum of Rs. 50 lakh for the affected district. The funds in this regard will be released by the Nodal District Authority of the MP concerned to the District Authority of the affected district to execute permissible works

PLANNING & RESPONSE STRUCTURE

5.1 CRISIS MANAGEMENT FRAME WORK

An effective response is the result of a comprehensive crisis management program that orchestrates well developed decision-making framework that rightly aligns various incident and site-level response activities. The ability to manage a crisis successfully is the result of understanding the risks and vulnerabilities involved, comprehensive planning, regular exercises, and a strategy for maintaining these capabilities to deal disasters regardless of type, location and intricacy.

5.4 RESPONSE MATRIX (HAZARD SPECIFIC)

For effective response, multiple needs must be met in a coordinated manner in short time frames. Thus, in an acute response situation, different agencies must coalesce into a matrix of linked actions that function smoothly across horizontal and vertical chains of command system regardless of department specific infrastructure, culture, area of expertise, and responsibilities.

Ultimately, the response matrix and all of its components must work in a coordinated manner toward mitigating the impacts of disasters on the public and on affected elements of the physical infrastructure.

5.7 RESPONSIBILITY MATRIX

The perils of hazard has to be negated with appropriate observation and focused activities, which necessitate the need of an ever vigilance forecasting system that will help in managing the disastrous effect of a hazard.

The structural frame work starts with identifying, evaluating and assigning well defined roles and responsibilities of various authorities in managing disasters. Experiences with previous disasters make it clear, that authorities have to be sensitized prior and subsequent to an unturned event. Thus, coordination among stakeholders for effective management of disasters is essential and to ensure this,pre planning must be done before the onset of a disaster and specific task must be assigned to each department so as to provide training in the specific areas.

TABLE 35: RESPONSIBILITY MATRIX

Time	Task	Department/ Agency	Activity

Organizing camps Inspection of camps, making arrangements to provide feed and fodder to animals, Treatment in cares of diseases Provide information to all concerned about the disasters, likely damages to crops and plantations and information about ways to protect the same Public Works Equipment support, debris and road clearance. Supply of food grains and providing free ration to affected areas

SOPs and Checklists are enclosed in Annexure 40

5.10 EMERGENCY SUPPORT FUNCTIONS PLAN, 2014

In the aftermath of a major natural disaster wherein State Government's assistance is required for the districts, the command, control and coordination will be carried out under the ESFs Plan.

EOC shall activate the ESFs and the concerned Department/Agency of each ESFs shall identify requirements in consultation with their counterparts in affected districts, mobilize and deploy resources to the affected areas to assist the district (s) in its/their response action. The State EOC shall maintain a close link with the District EOCs and NEOC.

ESFs shall be responsible for the following:

1. They will coordinate directly with their functional counterpart in districts to provide the state government, the assistance required. Request for assistance will be channelled from the district both through the District Incident Commander/DEOC and designated departments/agencies. Based on the identified requirements by the districts, appropriate assistance shall be provided by an ESF Department/Agency to the district or at the District Incident Commander's request, directly to an affected area.
2. The designated authorities for each of ESF shall constitute quick response teams and assign the specific task to each of the member.
3. The designated authorities for each of the ESF shall identify and earmark the resources i.e. Manpower and materials to be mobilized during the crisis.
4. An inventory of all the resources with the details shall be maintained by each of the designated authority for each of the ESF.
5. The designated authority for each of the ESF will also enter into pre-contracts for the supply of resources, both goods and services to meet the emergency requirements
6. The designated authority for each of the ESF will be delegated with adequate administrative, legal and financial powers for undertaking the tasks assigned to them.

Primary and Secondary Agencies: The designated primary agency shall be assisted by one or more support agencies (secondary agencies) and shall be responsible for managing the activities of the ESF and assisting the district in the rescue and relief activities and ensuring that the mission is accomplished. The primary and secondary agencies have the authority to execute response operations to directly support the needs of the affected districts.

Roles and responsibilities of primary and secondary Emergency Support Agencies along with Form/Proforma are attached in Annexure 41.

To be issued by all departments listed in ESF Plan, 2014

Subject: Deployment of resources in the event of disasters - authorization thereof as per the ESF Plan –2014

1. GO (Ms) 240/2010/DMD dtd 19/06/2010

The Department of Revenue and Disaster Management is the nodal department for coordinating relief and response in the event of both natural and manmade disasters, as per the State Disaster Management Policy, 2010 approved vide GO cited as 1st paper above.

In the event of a disaster, this department is required to provide emergency support to the Department of Revenue and Disaster Management in regard to the functions listed in the ESF Plan, 2014.

It has accordingly been decided, with the approval of the competent authority, to authorize the nodal officers and the designated officers in the field offices of this department to deploy resources in the events of disasters and in accordance with the requests received from the State Emergency Operations Centre or District Emergency Operations Centres under Department of Revenue and Disaster Management.

In case the resources are likely to be deployed for a period exceeding 72 hours, the officers concerned shall obtain necessary approvals of the competent authority for continued deployment. In such a situation necessary approvals may also be obtained for procurement and deployment of pre-contract resources, as the need may be.
