### Brief of the Training

On Wednesday, May 11th, 2022, Kerala State Disaster Management Authority and Kerala Institute of Local Administration collaborated to hold a training on lightning disaster risk reduction for LSGs in the state. The training consisted of two sessions and was broadcasted live on YouTube and Facebook. Mr. Monish Jose from Kila monitored the sessions.

### Session 1: Lightning Safety Guidelines

Ms. Ramya K, Meteorologist, Kerala State Disaster Management Authority, lead the session. The session discussed the Lightning Safety Guidelines. She gave a wonderful presentation in a simple and comprehensible way and briefed the session on the gravity of the lightning, which is declared as a state specific disaster. She explained about the emergence of lightning and how it would become a hazard to people.

## Session 2: Lightning Action Plan

Mr. Fahad Marzook, Hazard Analyst, Kerala State Disaster Management Authority, handled the Second session. The session was about Lightning action plan. He gave a worthwhile presentation which enabled everyone to understand about the importance of action taken during lightning. He gave a brief idea of social interference in lightning action plan and about the information shared through the communication channels of KSDMA. He also summarized the Kerala State Lightning Action Plan. The training was very informative in conveying the message on measures to be taken to prevent the Lightning disaster.

The training program was attended by 564 people through YouTube live and 328 people on Facebook live. 21 people attended the meeting on zoom platform.
