Incident Response System (IRS) Training Report

The Incident Response System (IRS) is an effective mechanism for reducing ad-hoc measures in response. It envisages a composite team with various Sections to attend to all the possible response requirements. The IRS designates officers to perform various duties and get them trained in their respective roles. It also emphasizes the need for proper documentation of various activities for better planning, accountability and analysis. This will greatly help in reducing chaos and confusion during the response phase. Everyone will know what needs to be done, who will do it and who is in command.

As part of 2020 monsoon preparedness, trainings were organized on Incident Response System (IRS) for all District IRS officials and Taluk IRS officials of all districts. The training was organized by Kerala State Disaster Management Authority (KSDMA) and District Disaster Management Authorities. Physical trainings were conducted in three districts ie, Pathanamthitta, Palakkad and Wayanad districts and rest of the district's sessions were conducted via online. The main objective of the training was to familiarize the roles and responsibilities of the IRS officials.

The sessions were handled by Mr. Rakesh M.C, Deputy Tahsildar, Taluk Office, Mananthavady, Wayanad, Mr. Siji M Thankachan, Village Officer, Mangalam Dam, Mr. Sathyakumar C J, Hazard Analyst, KSEOC, Ms. Amrutha, Hazard Analyst, KSEOC The speakers covered the history of IRS, IRS Structure, Roles and Responsibilities of IRS officials.
