

EventName	An academic session on 'Basics of Disaster Management' to University Students
Event date	19 January 2024
Event venue	Seminar Hall, Department of Physics,
Details of the Event	<p>On January 19, 2024, the University of Calicut hosted an interactive academic and training session centered on the fundamentals of disaster management. Specifically designed for participants enrolled in the audit course syllabus, the session attracted students from diverse academic backgrounds, including Integrated MA in Development Studies, and Integrated MSc in Chemistry and Physics. The primary objective was to seamlessly integrate disaster management principles into the audit course curriculum. The session comprehensively covered essential topics such as hazard identification, risk assessment, early warning, emergency response principles, community engagements, career opportunities and case study analyses. By incorporating real-world examples and emphasizing the interdisciplinary nature of disaster management, the session effectively enhanced participants' understanding within the context of their academic pursuits, fostering a collaborative and practical learning environment.</p>
