DCKSGD/3419/2020/K2

Dated: 04/06/2020

Sub: Inter Agency Coordination - Organizations involved & designating Executive members — Revised Orders issued - Reg

Read: Letter No. DM/1/2019/SDMA from the Member secretary KSDMA dated 26/02/2020

The Inter Agency Coordination led by Sphere India created a common platform for the Humanitarian Agencies to come together and plan their actions avoiding duplication, overlapping and also to have a better collaboration with the District Administration supplementing the state Government relief effort. IAG coordination was facilitated in 10 most affected districts of Kerala (2018-Flood) to strengthen the coordination mechanism to ensure efficiency in humanitarian response. Later it spread to 14 districts. It was observed that there is a need for sensitising local NGOs and CBOs who took part in the relief efforts on Humanitarian Minimum Standards, CHS, RIC, and GBC and on how to use JRNA tools including digital data collection, for better Coordination to avoid duplication and build common understanding among the agencies.

The Joint Detailed Needs Assessment (JDNA) conducted by Sphere India in the month of September has covered the most important sectors such as Gender, Health, Nutrition, Shelter, WASH, Communications, Education, Heritage, Protection, and Livelihood. With five Inter agency Coordinators deployed in the 10 most affected districts, Sphere has provided a unified platform for the humanitarian agencies for collaboration with the District administration of these districts. Sphere India conducted 31 district and 3 state level IAG meetings within a period of three months (access link: https://sphereindiablog.wordpress.com/).

Need for IAG: Reduce vulnerability and disaster risk of people of Kasaragod through coordination, advocacy and knowledge management, ensuring effective and efficient response to emergencies while ensuring minimum humanitarian standards.

Specific Objectives of IAG:

- To institutionalize inter agency coordination led by district and state Government with ownership and participation of local civil society organizations, Academia, CSR initiatives, media and other stakeholders.
- Mapping of sectoral NGO and other stakeholder capacities
- To coordinate emergency response initiatives, activation and deactivation of unified response, sharing information and assessments at the time of an emergency, to ensure effective and efficient delivery of emergency relief
- To provide a forum for knowledge management and exchange of information among members and other stakeholders to improve standards and efficiency in disaster response and risk reduction.
- To promote Sphere and other national standards in collaboration with other state and nonstate actors through advocacy and collaboration.

 To identify information/data gaps and undertake risk and vulnerability assessments, for more efficient and effective disaster preparedness and management;

The purposes of the IAG:

- To provide a forum for coordination among members and with NGOs for effective disaster management in the Kasaragoddistrict.
- To promote the Sphere values and other international humanitarian standards among all the civil society organizations working for disaster management
- To develop and disseminate technical information relative to effective planning and implementation of disaster management program in the district
- To build capacities of subscribing members (and their implementing partners) to undertake joint quantitative and qualitative damage assessment during emergency that could enable member organizations to respond quickly and effectively to emergencies and avoid duplication of efforts.
- To set up a two-tier IAG mechanism consisting of IAG of NGOs at the state level and the implementing NGOs as the District Coordination Committee Members.
