| Event Name   | Living with Climate Change: Dutch and Kerala Perspectives on Adaptation and Resilience   |
| Event date   | 3rd July 2024<br>2:00 PM to 5:30 PM  |
| Event venue  | Hilton Garden Inn, Trivandrum  |
| Details of the event                                 | <p>Organised by the Water Resources Department under the India-Netherlands Water Partnership, the panel discussion on '<i>Living with climate change</i>' examined the perspectives of Dutch and Kerala experts on climate change adaptation and resilience in water management.</p> <p>It addressed Kerala's water challenges, including monsoon variability, river dynamics, groundwater dependence, and coastal vulnerabilities. The session also drew on Dutch expertise in water governance, coastal protection, and climate adaptation to identify lessons applicable to Kerala, while highlighting innovative practices in disaster preparedness, early warning systems, and sustainable water resource management.</p> |
| Number of females                                    | 28   |
| Number of males                                      | 33   |
| Number of trans genders                              | -  |
| Number of children                                   | -  |
