Event Name	Awareness session on the topic "Latest Strategies and Best Practices in Disaster Management" for the Emergency Response Team Members of Technopark
Event date	11 September 2024
Event venue	Technopark, Trivandrum
Details of the event	A One-Day Training Programme for the Emergency Response Team (ERT) members of Technopark was organized by Technopark Trivandrum in coordination with the Kerala State Disaster Management Authority (KSDMA) on 11th September 2024. The programme included sessions delivered by: ● Hazard Analyst (Disaster Management) on "Latest Strategies and Best Practices in Disaster Management" ● Hazard Analyst (Public Health) on "Basic First Aid Safety" ● Fire & Rescue Officer on "Basic Fire Safety and Rescue Techniques" The Hazard Analyst (Disaster Management) covered the fundamental concepts of disaster management and highlighted the latest strategies and best practices. Key areas addressed included: ● Definition of hazards, risks, vulnerability, and disasters ● Hazard vulnerability profile of Kerala ● Overview of natural and anthropogenic disasters, with specific reference to flood risk relevant to the area ● Phases of disaster management

	● Various Disaster Risk Reduction (DRR) initiatives of Kerala SDMA ● Early warning dissemination ● Role of employees in Disaster Risk Reduction ● Technology applications in DRR ● Do's and Don'ts during disasters ● Volunteerism in disaster response The interactive awareness session for the Technopark's Emergency Response Team members encouraged active participation, with members demonstrating a strong commitment to understanding their responsibilities during emergencies.
